NEWCIS (North East Wales Carers Information Service)
Supporting unpaid carers across Denbighshire, Flintshire and Wrexham

SPRING 2023 | ISSUE 133

You are not alone... NEWCIS are here to support you

The results of the 2021 Census have been published recently and whilst the number of people caring has decreased slightly, the hours they are providing have risen:

10.5% of the population aged 5 years and over in Wales (around 311,000 people) provided some level of unpaid care on a weekly basis (down from 13.5%)

The majority of carers provided 50 or more hours of unpaid care a week (107,000 people), followed by 9 hours or less a week (96,000 people). About 43,000 people provided 10 to 19 hours of unpaid care a week, 31,000 people provided 20 to 34 hours a week, and 35,000 people provided 35 to 49 hours a week.

In November 2022 we published a consultation to carers that had received a service from our Wellbeing Matters project, funded by the National Lottery Community Fund. Thank you to everyone that completed the consultation. We aim to implement your feedback into our services.

Here are a summary of the responses we received...

"Without the lottery funded service we as carers would struggle even more."
